

We first met Jeff and Tammy Lassere (of Welbilt Custom Homes) years ago when our brother and sister-in-law were working with them on building their beautiful home. I remember walking into their model, and being in complete awe of the amazing work they put into their projects. As we walked through the home, their attention to detail in EVERYTHING was so evident...we knew that when we were ready to build our future home, it would be with them!

From the very beginning, Jeff and Tammy made us feel welcome and at ease. Going through the process of building a home can be quite intimidating and overwhelming at times! Each time that we met with Jeff and Tammy (or anyone else on their team), we were comfortable and confident that we were all on the same page. Judy Lassere has an eye for all things interior, and we could always look to her for the best professional advice on pairing the colors and styles of everything from brick and stucco to cabinets and handles. We couldn't be more thrilled with how everything came together!

Welbilt Custom Homes went above and beyond to help make our many visions come to life in our home. Many times along the way, Jeff, Tammy, Judy, and their team exceeded our expectations as far as the time line was considered. They want to make their clients as happy and pleased as they possibly can, and they will do whatever it takes to achieve customer satisfaction.

Home building is definitely Jeff and Tammy's calling, and it shines through in each project with their stamp on it. We couldn't be more proud and excited to raise our family in our beautiful Welbilt Custom Home!

Sincerely,

Ricky and Trisha Lore
