Tammy and Jeff:

It was a pleasure working with you during the entire process of building our new home. Your thoroughness and attention to detail was the best anyone could ask for. We receive compliments about the design from everyone that walks through our doors. Most of all, we love it more than anyone. There is no one else around that can match the professionalism and creativity that you both have. We will strongly recommend you to any family or friends looking to build a house in the future.

Thank you for everything,  
Dave & Cindy Ducote
